

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

In re Patent Application of:  
Marina B. Jensen

Application No.: 10/519,025

Confirmation No.: 1353

Filed: December 22, 2004

Art Unit: 1797

For: DUAL POROSITY FILTER

Examiner: J. W. Drodge

**STATEMENT OF THE SUBSTANCE OF INTERVIEW**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Madam:

A telephonic interview occurred on April 2, 2009, between Examiner Drodge and Applicant's representative Mark Harper. No exhibits were provided. The references of record were discussed in the course of the interview and it was agreed that amending of claim 64 to recite specific structure as described on page 17, lines 12-26 of the specification would better define and may distinguish over the formerly applied prior art. In addition, it was agreed that if claim 52 were similarly amended, a rejoining of restricted method claims 52-63 would be considered. No agreement was reached in the course of the interview.

Entry of this statement of the substance of interview is requested as the statement is in compliance with 37 CFR 1.133.

Dated: 04/20/2009

Respectfully submitted,

By: /Mark A. Harper, Ph.D./

Mark A. Harper, Ph.D.
